

Every Child Deserves Two Good Parents

PRINCIPLE 2: WORKSHEET 2

We believe this statement bears repeating:

Research consistently shows that "ongoing conflict is more harmful for children than the parents' separation itself."

Write about the ways you have seen the harm to your children manifest, due to the conflict between you and your coparent...

1. Before the separation - while you were all still together...

2. Since the separation...

3. Currently...
